Tryptophan	408 mg
Tyrosine	703 mg
Valine	1315 mg

**SUGGESTED DOSE:** Mix in water, milk, rice milk, soy milk, or fruit juices for a refreshing healthy beverage, or as directed by your healthcare professional. Avoid heating if you wish to preserve the biological activity of the proteins and immunoglobulins.

## ULTRA PURE WHEY PROTEIN™

A HIGH QUALITY, HIGHLY PALATABLE WHEY PROTIEN THAT IS LOW IN FAT AND CARBOHYDRATES

- Supports healthy tissues
- Strength and conditioning
- Promotion of favorable body lean to body fat ratios
- A great low-carbohydrate, low-fat protein source
- Supports healthy immune function
- Promotion of favorable intestinal flora (colonic epithelial and microbial balance)
- Suitable for all ages and lifestyles (children, elderly, sedentary, athletic)
- In three palatable flavors: original, vanilla, and chocolate

Whey protein is the highest biological value protein available. It contains high levels of branched chain amino acids (BCAA) and easily absorbed forms of di- and tri-peptides for nitrogen retention support.

There is a full 3,878 mg of L-glutamine per serving (plain flavor). Ultra Pure Whey Protein™ is contaminant-free, checked with multi-patented ultra filtration, pH, and a temperature controlled process. It has undenatured, biologically active proteins supplying all essential and non-essential amino acids. No sweeteners added, natural or artificial.

When choosing a protein for your patients, consider Ultra Pure Whey Protein™. Ultra Pure Whey Protein™ is a clean, contaminant-free source of the highest biologically active proteins available

Immunoglobulins support a healthy immune system and Ultra Pure Whey Protein™ has a high level (approx. 1200 mg per serving) of undenatured biologically active immunoglobulins per serving. For your patients who wish to lose weight, Ultra Pure Whey Protein™ is an excellent choice. It will enhance fat loss and lean tissue retention.

Ultra Pure Whey Protein™ has easily digested proteins and will help normal blood sugar and insulin levels, and give your patients a more consistent energy level throughout their day. Patients who are immunocompromised need a good source of biologically active immunoglobulins and proteins to support their immune system, lean tissue maintenance, and tissue repair. Again, prescribing Ultra Pure Whey Protein™ is a wise choice for these patients.

Original flavor ingredients: Whey protein concentrate

Vanilla flavor ingredients: Whey protein concentrate, natural flavor, Beflora Plus®, gum blend (cellulose gum, xanthan gum, and carrageenan), salt, silica, d-calcium pantothenate, pyridoxine HCl, riboflavin, thamin HCl, cyanocobalamin.

Chocolate flavor ingredients: Whey protein concentrate, cocoa, Beflora Plus®, gum blend (cellulose gum, xanthan gum, and carrageenan), natural flavors, salt, silica, d-calcium pantothenate, riboflavin, pyridoxine HCl, thiamin HCl, cyanocobalamin.
